**Funds raised support:** For many years residents of Clear Lake have enjoyed one of the area's finest symbols of undeveloped land, Kasota Island located in the middle of Clear Lake, Indiana. This privately owned island was facing development and the residents were offered the opportunity to buy the island and protect it from development forever and enforce protection parameters. Pledges and contributions from residents and area supporters as well as many fundraisers have made this goal a near reality and proceeds from the sale of 'Clear Lake Cuisine' will help in the final phase of this project.
